- Assignments
 - Both Programming and Written Tasks
 - 9 are planned for now (Tentative)
 - Submitted through canvas (uta.instructure.com)
 - All assignments must be electronically submitted
 - Make sure text is legible on written tasks
 - Programming tasks must be executable on omega or must be coded in base versions of C, C++, Java, Python 2 or Python 3 (No additional packages or APIs unless cleared with instructor/TA first)
 - Make sure your code runs on omega for ease of evaluation.
 - Any additional instructions will be provided in assignments

Welcome to the Course

- Attendance
 - Try and attend the lectures.
 - Video recordings (available on canvas) are on a one-day delay and are there only for review purposes (and in case of emergencies)
 - At random points during the course, roll call will be taken. Miss three such roll calls, and you get an F for non-attendance.
